

## NOTICE OF INVITATION

*Suppliers offering Single-Phase, Pole-Mounted Transformers under 100kVA are invited to participate in an environmental excellence program sponsored by leading U.S. electric utilities.*

The Electric Utility Industry Sustainable Supply Chain Alliance (“the Alliance”) is a group of U.S. investor-owned electric companies formed to work with non-fuel suppliers to improve environmental performance and advance sustainable business practices.

The Alliance has formed a working team focusing on single-phase and pole-mounted transformers under 100kVA. The Team is holding a webinar on September 21, 2009, at 2:00PM ET. The purpose of the webinar is: to outline the team’s planned activities; obtain input from suppliers and other stakeholders ; and to solicit interest in participating in the Green Suppliers Network (GSN) “lean and clean” process review.

**To learn more about the Alliance Transformer Program, you are invited to attend a webinar on September 21, 2009, at 2:00PM ET. Please register your attendance with Christina Beauchamp at ScottMadden, Inc. via email at [christinabeauchamp@scottmadden.com](mailto:christinabeauchamp@scottmadden.com). You can also register through the Alliance website at [www.EUISSCA.org](http://www.EUISSCA.org)**
