Electric Utility Supply Chain Alliance requests participation of transformer and industrial energized outdoor equipment manufacturers in Best Practices Gathering Event

Participants can register at Alliance's Web site: www.EUISSCA.org

The Electric Utility Industry Sustainable Supply Chain Alliance, a group of U.S. investor-owned electric companies formed to work with non-fuel suppliers to improve environmental performance and advance sustainable business practices, will hold a webinar at 10 a.m. ET February 26, to gather participants for a survey addressing best environmental practices associated with the TRANSPORTATION, MAINTENANCE, and DISPOSAL of transformers (and equivalent outdoor energized equipment).

Anyone wishing to participate in the webinar should register at the Alliance's website (www.EUISSCA.org) or e-mail Sara Scroggins at SouthWestern Association via email at skscroggins@swassn.com or by calling 816 561 5323
