

PRESS RELEASE

Electric Utility Supply Chain Alliance Hosts Transformer Forum

— *Participants can register at Alliance's Web site: www.EUISSCA.org* —

The Electric Utility Industry Sustainable Supply Chain Alliance (the "Alliance") is a group of U.S. investor-owned electric companies formed to work with non-fuel suppliers to improve environmental performance and advance sustainable business practices.

The Alliance has formed a working team focusing on single-phase and pole-mounted transformers under 100kVA. The Team is holding a webinar on September 21, 2009, at 2:00PM ET. The purpose of the webinar is to outline the team's planned activities and to obtain input from suppliers and other stakeholders. Anyone wishing to participate in the webinar should register at the Alliance's website (EUISSCA.Org) or e-mail Christina Beauchamp at christinabeauchamp@scottmadden.com.
