

Sustainability Perspectives

The Alliance Newsletter

The Quarterly Newsletter of Electric Utility Industry Sustainable Supply Chain Alliance • Summer 2018

Message from the Chair

Chair, Michael Haggerty
Con Edison, Vice President of Supply Chain

Change is a theme that is resonating through the Alliance. As each of our companies prepares for the challenges that lie ahead, the Alliance continues to make steady progress in multiple strategic areas. Transitioning from a Standards Development Organization to a Trade Organization, creating a supplier affiliate membership program, and building a new survey platform are just three areas of focus. All of the work teams continue to demonstrate a strong level of engagement and have completed a significant amount of work. These initiatives will help us continue the collaboration with our internal business units and suppliers in support of our commitment to environmental stewardship while driving operational excellence. Stay safe and thank you for your continued support. I'm looking forward to the second half of 2018 and also seeing you at the Sourcing Conference in Scottsdale in September!

Michael Day

Supplier Affiliate Memberships

We are extending an invitation to suppliers to the electric utility industry to join us in The Alliance as Affiliate Members. Our goal is to create closer collaboration between electric utility industry leaders who are addressing the challenges of creating a cleaner, more efficient and more sustainable supply chain – and their suppliers. Conference Registration is included in the membership so please consider affiliate membership as your approach to directly engaging with us in 2018.

SRP Announces 2035 Sustainability Goals **Carrie Young**

Interview with Carrie Young, Senior Director of Corporate Operations Services

For the Salt River Project perspective on the role of The Alliance in furthering their supply chain sustainability practices and guidelines, we spoke with Carrie Young and Sam Cutruzzula.

“SRP considers environmental sustainability a business imperative in our supply chain decisions. We continually share this position with suppliers. Our engagement with the Alliance provides a platform to elevate our program and a benchmark with best practices for meeting and exceeding our 2035 supply chain sustainability goals.”

**Keynote Announced:
Daniel Kreeger**

[Climate Change is Here – Learn more at the Sustainable Sourcing Conference!](#)

Daniel Kreeger is co-founder and executive director of the Association of Climate Change Officers (ACCO). He is bringing his unique familiarity of government, industry and association positions on climate and sustainability to our upcoming Sustainable Sourcing Conference in Scottsdale. Since 2008, Dan has led the development of ACCO, including producing industry leading conferences such as the GreenGov Symposium (in partnership with the White House

Council on Environmental Quality) and the Climate Leadership Conference and Awards (in partnership with the U.S. Environmental Protection Agency, The Climate Registry and Center for Climate and Energy Solutions). Be sure to attend his Keynote Address on Thursday morning of the conference and get plenty of food for thought!
