

Supplier Affiliate Membership

ELECTRIC UTILITY INDUSTRY
SUSTAINABLE SUPPLY CHAIN ALLIANCE

We are extending an invitation to suppliers to the electric utility industry to join us in The Alliance as Affiliate Members. Our goal is to create closer collaboration between electric utility industry leaders who are addressing the challenges of creating a cleaner, more efficient and more sustainable supply chain – and their suppliers.

If your company is committed to sustainability, you should have a place at the table.

-  Participate in year-round activities, and forums with decision makers and influencers.
-  Display your Supplier Affiliate Member logo on your website, brochures and business cards to identify your company as one with a special focus on utility sustainability.
-  Expand your expertise by becoming a regular participant or presenter in our Practice Sharing Sessions.
-  Take advantage of discounts and priority placement in our Supplier Showcase during the Annual Conference.
-  Receive two Early Bird passes (one for Enterprise Memberships) for the Annual Conference.
-  Receive two passes (one for Enterprise Memberships) to the Industry Leaders' Luncheon where you will have an excellent opportunity to collaborate with electric utility peers in shaping the program.
-  Participate on a Work Team. Get involved on the Supplier Survey, Practice Sharing or Sourcing Conference teams.

**ELECTRIC UTILITY INDUSTRY
SUSTAINABLE SUPPLY CHAIN ALLIANCE**
